Ernest Davis, Candidate for Wicomico County Executive

I am running for Wicomico County Executive because Wicomico County deserves leadership that is grounded in integrity, transparency, and a sincere commitment to serving all residents. My campaign is about bringing people together, strengthening our community, and building a future where every voice is respected and every neighborhood has an opportunity to thrive.

My focus is on unity, accountability, and practical leadership. I believe we can move Wicomico County forward by working together with honesty, purpose, and a shared commitment to the common good. That is why I am asking for your support and your vote to help build a better future for everyone who lives in this county.

Regarding the statement made by Julie Giordano, let me be clear: I have not purchased any "No Queens" signs, and I have not placed any sign on anyone's property. If comments are going to be made about my campaign, they should be accurate, factual, and responsible.

This campaign is not about division or distraction. It is about leadership, respect, and delivering results for the people of Wicomico County. I am running to be the next Wicomico County Executive because I believe in this community, and I believe that together, we can make a meaningful difference for the betterment of all residents.
